TURBO FLANGES

Diagram of turbo flange FL4950. It is a square flange with a central circular opening of diameter $\varnothing 35$. The overall width is 68 and the height is 44. There are four mounting holes, one in each corner.

FL4950

NOTES: HKS 35mm Wastegate Entry Flange

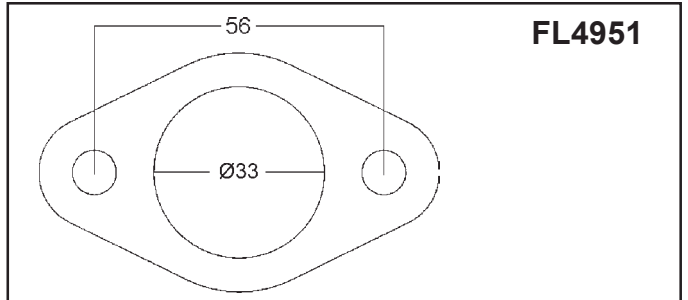

Diagram of turbo flange FL4951. It is a diamond-shaped flange with a central circular opening of diameter $\varnothing 33$. The overall width is 56. There are two mounting holes on the left and right sides.

FL4951

NOTES: HKS 35mm Wastegate

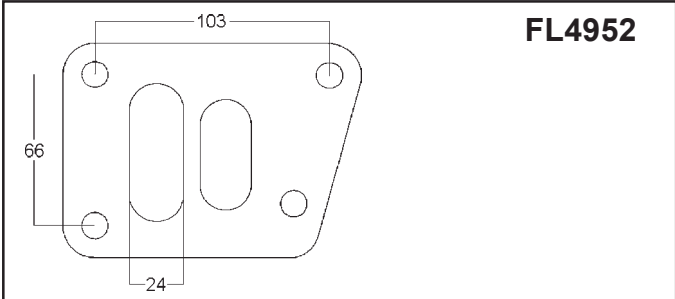

Diagram of turbo flange FL4952. It is a rectangular flange with two vertical oval-shaped cutouts in the center. The overall width is 103 and the height is 66. The distance between the two oval cutouts is 24. There are four mounting holes, one in each corner.

FL4952

NOTES: Mazda Series 4 RX7 Entry Flange

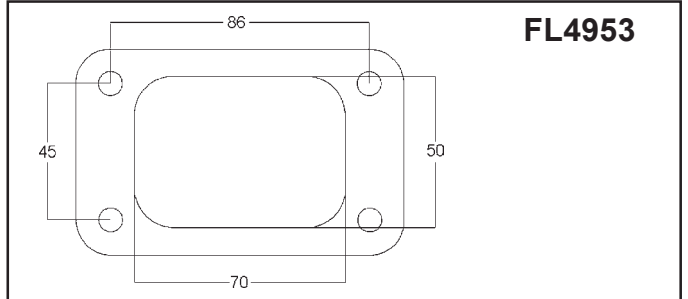

Diagram of turbo flange FL4953. It is a square flange with a central square opening. The overall width is 86 and the height is 50. The distance between the left and right sides of the square opening is 45, and the distance between the top and bottom sides is 70. There are four mounting holes, one in each corner.

FL4953

NOTES: Masterpower T-70 Entry

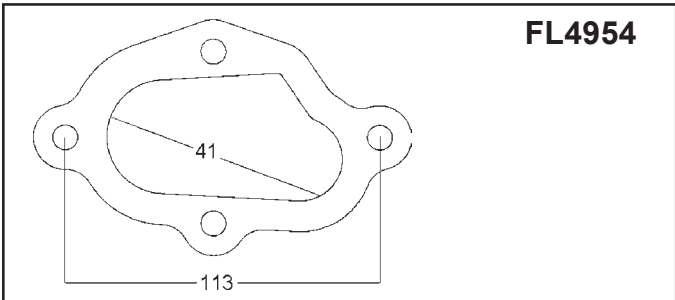

Diagram of turbo flange FL4954. It is an irregularly shaped flange with a central oval opening of diameter 41. The overall width is 113. There are four mounting holes, one in each corner.

FL4954

NOTES: 1988 Daihatsu Charade GTE1, CB80, 993cc

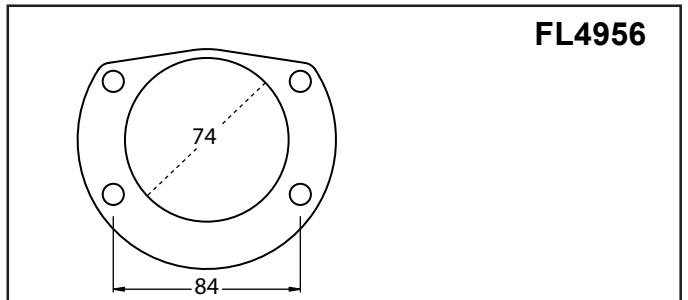

Diagram of turbo flange FL4956. It is a circular flange with a central circular opening of diameter 74. The overall diameter is 84. There are four mounting holes, one in each quadrant.

FL4956

NOTES: Ford - 9 inch Diff Flange.

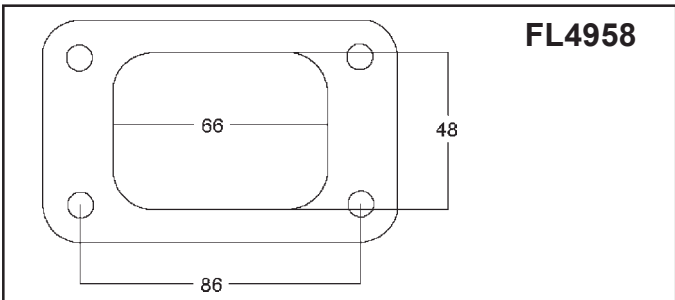

Diagram of turbo flange FL4958. It is a square flange with a central square opening of diameter 66. The overall width is 86 and the height is 48. There are four mounting holes, one in each corner.

FL4958

NOTES: Turbo Entry

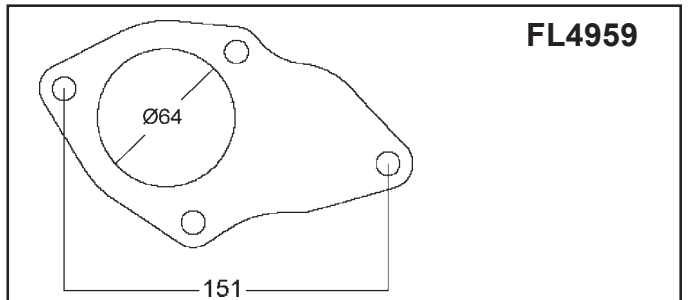

Diagram of turbo flange FL4959. It is an irregularly shaped flange with a central circular opening of diameter $\varnothing 64$. The overall width is 151. There are four mounting holes, one in each corner.

FL4959

NOTES: Mits VR4 Twin Turbo Outlet

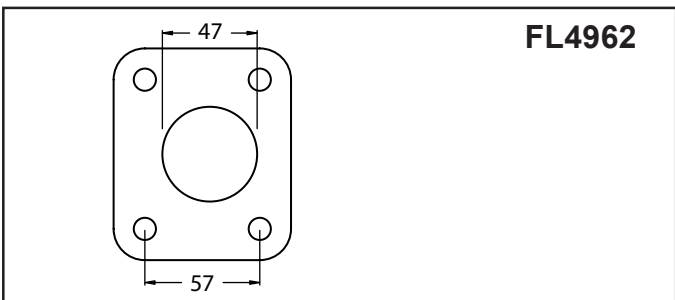

Diagram of turbo flange FL4962. It is a square flange with a central circular opening. The overall width is 57 and the height is 47. There are four mounting holes, one in each corner.

FL4962

NOTES: Mits TD04 Inlet

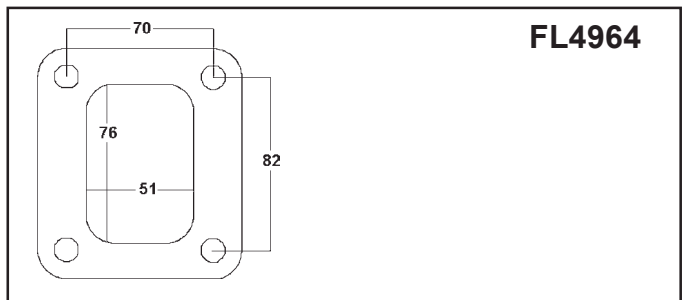

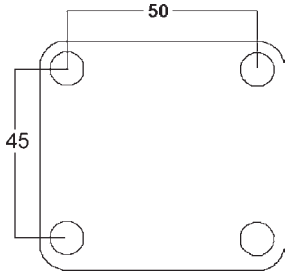

Diagram of turbo flange FL4964. It is a square flange with a central square opening. The overall width is 70 and the height is 82. The distance between the left and right sides of the square opening is 76, and the distance between the top and bottom sides is 51. There are four mounting holes, one in each corner.
